So, with the fixed purpose of developing fifty division managers to handle our national and overseas selling force, we started a little over three months ago an intensive managerial training course for their development.

These men are now happily on the job. In the course of their training they are selling our Preferred issue of one million dollars, and when you see their records it will authorise you to learn that the producers are earning from \$100 to \$500 a Week, and many of them sever sold earthing before.

The fact that they are now passing the balf million mark is proof positive that the proposition treef stands the acid test of rigid investigation.
